(Desert Sun Photo) TO SWING AROUND—Above, the tall, century-old palms on Indian avenue before Indian Mineral Baths. They'll be swung around to run in a line at right angles to Indian avenue to make way for completion of the widening job.

## Desert Court Plea Given Grand Jury Plan Extension of Indian Ave. Paving

### School Votes to Deed Land for Widening

15 Foot Strip at Frances Stevens School in Deal

Indian avenue will be widened from its junction with Palm Canyon drive to Paseo El Mirador, it was indicated this week in action of Palm Springs Unified School district board and announcement by City Manager Russell Rink. Above the 100-foot mile stretch from Ramon to Alejo it will be widened from its 60-foot width to 75 feet. Below Ramon to the junction it will conform to the present mile stretch.

Work will be started this summer.

**SCHOOL BOARD** members at their meeting last Thursday voted to dedicate the east 15 feet of Frances S. Stevens school property to the city for use in widening the avenue.

Public hearing on the proposal will be held at 7:30 p.m. July 1, Dr. A. G. Hoff, superintendent of the district said.

Rink said that the city would move the oleanders and fence on the eastern edge of the property this summer.

**HE SAID THAT** El Mirador hotel corporation had already given the city the land for widening that block up to Paseo El Mirador.

Extension of widening beyond that point is under study but nothing definite has been done. The block between Ramon road and the junction will be widened this summer when work is done completing the unfinished portion before the Indian Mineral Baths, Rink said.

### Elderly Man Found Dead in Reservoir

Charles Blacklaw Believed to Have Ended Own Life

Second death by drowning within a week here was reported Sunday when police found the body of a man later identified as Charles Blacklaw, 82, in a reservoir at the north end of town. Although no clues were found on the body, the coroner's office is inclined to believe that it was suicide.

The tragedy was first reported to police by Henry Uevner, hotel caretaker, who told them he saw the body of a man "or a store dummy" floating in the reservoir.

**SGT. DURMAN ORDWAY** and Constable Fred Duffey picked up Uevner at the hotel and returned to the reservoir with him. The body was found floating face down.

A wall, four feet high topped with six strands of barbed wire circles the reservoir, making it almost impossible for a person to enter. The gate was found locked but further investigation revealed that the barbed wire was cut on the south side with a hole sufficiently large to enable a man to crawl through to the water.

**POLICE NOTIFIED** Ben White, county coroner, who asked that the body not be removed until Paul Miller, a representative of his office, arrived.

After the body was removed, Julius Edelstein, reserve officer, checked it and identified it as that of Charles Blacklaw who lived at a private home on North Indian. Blacklaw was a former gardener at Hotel El Mirador. Edelstein said that on May 25, this year, he found Blacklaw near the reservoir. He had been looking for him after Blacklaw's landlady reported that he had gone toward the reservoir. At that time, Edelstein said, he found the elderly man asleep and in a weakened condition. He took him home.

**FIRE CHIEF** William Leoncio further added to the identification when he viewed the body. Weifels and Sons removed the body and took it to their mortuary. Nothing was found in the pockets of the man's clothing except a pair of horn-rimmed glasses and 22 cents in change.

The last time Blacklaw was seen by his landlady, she said, was May 30.

Investigating officers believe it was a case of suicide. Piecing together evidence, they said he was despondent because of the loss of his job and afraid he would be sent to a home for the aged.

Sgt. Ordway said that as far as he could learn, Blacklaw had no living relatives.

### LONG WAY AROUND BUT 2000-MILE SOS GETS MAN OUT OF SAND HERE

It was a long way around but it was quick.

An SOS call from a motorist, stuck in the sand here, went all the way to Portland, Ore., and back to summon help ten miles away.

It happened recently and this is how it was:

Charles Morreale of La Crescentia, was down in Palm Canyon in his automobile. His wife stayed at a local hotel. Morreale got stuck in the sand. He was three miles from anywhere to summon help.

But Morreale is also a ham radio enthusiast. His car is

equipped with a two-way outfit. So Morreale just started sending out an SOS.

Up in Portland, Ore., another ham heard him.

He responded and Morreale told him to call Mrs. Morreale at the local hotel and tell her to contact Kenny Paul, local Automobile Club of Southern California service representative. He described where he was.

The Portland man telephoned Mrs. Morreale here. She telephoned Kenny Paul.

Now Kenny Paul had just bought a new tow truck. Never had been used before for rescue work.

The new truck went to the scene, spotted Morreale and pulled him from the sand.

Because of the radio-equipped car (the call letters are W60JS) and an alert radio enthusiast more than 1,000 miles away, Morreale was quickly on his way, free from the soft sand.

And Kenny Paul was quite happy over the first job his new tow truck was called upon to do.

### Bar Group's Petition Heard at Riverside

Judge Theriaud Recites Figures on Desert Need

Three members of the courts committee of the 1952 Riverside county grand jury have under study this week a carefully prepared statement presented Monday by Judge E. E. Theriaud, president of the Desert Bar association, asking establishment of a permanent desert branch of superior court.

They will make a thorough investigation of the claims and arguments of the association and present their recommendations to county supervisors later.

**JUDGE THERIAUD** presented a long list of figures and other data on behalf of the Desert Bar association's petition for the desert branch to sit at Indio.

Judge Theriaud asked that the grand jury not only promote the establishment of the branch at Indio at the hands of supervisors but also the appointment of a fourth judge for the county by state legislators.

**FIGURES** showing the great growth of the desert area, of assessed valuation and population increase and of the large number of cases originating in the area were cited by Judge Theriaud.

He submitted a record of the number of cases heard by Judge Clarence Kincaid during the temporary Spring sessions of superior court at Indio showing the need for the branch court. Decision by the grand jury will be made later.

### DeMuth Park to be Ready in 10 Weeks, Belief

Action on completion of DeMuth city park in the triangle formed by Palm Canyon drive, Indian avenue and Ramon road has been rapid this week, City Manager Russell Rink said.

Grading of the site has been completed and palm trees have been ordered. They will stand in four groups. The entire site will be planted to Bermuda grass.

On the Palm Canyon drive side, installations will be set back from the curb line to provide for future widening of that thoroughfare.

Rink estimated that DeMuth park will be ready in about ten weeks.

The park is on land leased from Tony Torro and is being built from a fund established when the late Adolph A. DeMuth left a large sum to the city in his will, to be used for park purposes.

### Autos Soaked as Bulldozer Rips up Pipe

The corner of Palm Canyon drive and Ramon road was the scene of a 50-foot geyser early Tuesday morning when state highway equipment, improving the highway, ripped into a six-inch fire line. The water shot high in the air and persons going to work up town received a free car-wash.

The flow was soon stopped, however.

Eight pieces of heavy equipment are at work on Palm Canyon drive, a state highway, rounding off the corners, removing dangerous boulders, filling in depressions and preparing for black-topping the shoulders.

The work will extend from Ramon road to Mesquite avenue.

### Section 14 Zone Hearing Set for July 9 by Council

Hearing on proposed re-zoning of Section 14 has been set by city council for July 9 in council chambers.

Two previous hearings have been held by the city planning commission and their recommendations will go before council at the July 9 meeting.

Under the revised recommendations for Indian avenue, the planners favor zoning the entire frontage from Ramon to a point just south of Alejo road C-3, general business. Under the first plan portions had been C-2, retail business.

Location of the channel for Tachevah flood channel will also be fixed at the July 9 hearing.

### Indian Land Sale Report Sought

United States department of interior was asked by the house interior committee Tuesday to look into the sale of Indian lands in the Palm Springs area. Secretary Oscar L. Chapman was asked for an "immediate report."

The action was taken on motion of Rep. Norris Poulson, California, who said that he had reports of sales involving "hundreds of thousands and millions of dollars."

(Two tracts of land, valued collectively at \$155,000, are advertised for sale on July 8. They lie against the mountains in the northwest part of town.)

### Exaggerated

Wild Rumor Irks Weintraub Family

Like Mark Twain once said: The report is greatly exaggerated.

William L. Weintraub, owner of Sips and Snacks was greatly bothered Tuesday when a wild rumor spread about town that he had passed away.

Mrs. Weintraub said she was called to the telephone more than 100 times during the day to receive expressions of sympathy. And the end of the day she needed them but not as they were intended.

As for Weintraub, who has been ill, he said that he could personally say: "Nothing to it!"

### SAME ROAD BUT NAME IS LONGER

It's the same road—but with a new and longer name.

Supervisors Monday voted to change the name of the Banning-Idyllwild road to "Banning-Idyllwild Panoramic Highway."

Idyllwild chamber of commerce asked the change, county planners recommended it and at a hearing Monday at Riverside, no one appeared to protest.

## The PUBLISHER'S by OLIVER B. JAYNES Corner

"REVITALIZING A NATION"  
Published by The Heritage Foundation, Inc.  
75 E. Wacker Dr., Chicago 1, Illinois.  
Fiber-bound edition \$1.00 per copy.

HERE IS A BOOK that is must reading for Americans of all ages. It contains a statement of the beliefs, opinions and policies embodied in the public pronouncements of one of the greatest Americans of all time—General of the Army Douglas MacArthur. It is not a biography nor a narrative of events in which the famous leader took part. It is devoted entirely to statements, in his own words, of the beliefs, aspirations and policies of Gen. MacArthur.

In an introduction by Norman Vincent Peale, the noted New York City minister says: "It is an American document. Regardless of party affiliation, it should go into every home in America. It can, with our help, save America. This book," Dr. Peale continues, "will give you a spiritual rebirth of freedom and faith."

Many Americans have wondered what part Gen. MacArthur will play in the future course of this nation. This book makes it clear that his voice will continue to be heard throughout the land and that his firm faith in American principles will go a long way towards revitalizing this nation.

At the very heart of the General explains exactly where he stands. Although warned against it, he says "I shall raise my voice as loud and as often as I believe it to be in the interest of the American people. I shall dedicate all of my energies to restoring to American life those immutable principles and ideals which your forefathers and mine handed down to us in sacred trust. I shall set my course to the end that no man need fear to speak the truth."

On the subject of war, Gen. MacArthur says that "while we must be prepared to meet the trial of war if it comes, we should gear our foreign and domestic policies toward the ultimate goal—the abolition of war from the face of the earth." The General says that he is a one hundred percent disbeliever in war and declares that war is a fantastic and impossible method for the solution of international difficulties.

Gen. MacArthur's views are given about the problems in Asia and the Pacific. He describes the change in the military situation when Red China entered the Korean conflict and says it is a tragedy that there has been no definition of the political policy which would provide a solution for the new problems brought about by that change. After that time, he says, "our political and military leaders set aside our traditional military policy calling for the employment of all available power and means to achieve a prompt and decisive victory and adopted instead a doctrine of defense."

In a chapter on the "Failure of Leadership" the General is quoted as declaring that "Munich and many other historical examples, have taught us that diplomatic appeasement but sows the seeds of future conflict. Yet, oblivious to these bloody lessons, we now practice a new—and yet more dangerous form of appeasement—appeasement on the battlefield whereunder we soften our blows, withhold our power and surrender military advantages."

The real menace which faces America, MacArthur believes, is not from threat of external attack but from those insidious forces working from within. He advocates the end of invisible government based upon propaganda and the restoration of truly representative government based upon truth.

On the subject of aid to Europe the General observes that "the will to be free either exists in the human heart or all the money in the world cannot put it there. Thus despite the billions we have poured abroad, I doubt that we have gained a single Communist convert to the cause of human freedom... and, as quite obviously the people of Western Europe do not generally share with our own leaders the fear of Soviet military designs, despite these billions we seem to have made little progress in convincing them that they themselves should... shore up their own defenses."

### ASK BIDS FOR REMOVAL OF ANCIENT PALM TREES

Lawrence L. Odle said Tuesday that bids are being asked for the removal of more than a dozen stately century-old palm trees, a landmark of the Village, on Indian avenue before the bath house.

The huge old trees will be moved a short distance to form a line south of the Indian Mineral baths at right angles to Indian avenue.

One date palm, at the north end of the row, will be nearest to Indian avenue and the remainder lined up in a row.

The trees must be removed from the right-of-way and transplanted for the wider Indian avenue before July 15.

### This Side of the Sun

By Phat

**GRUPE NO. 384**  
The thing that puzzles me the most

And oft times makes me sore,  
Is just as I sit down to eat  
There's a thumping at the door.

A real estate stands outside,  
He wants to show the place,  
Although he had all day he comes

Just as I feed the face.

No offense meant but twice within the past few weeks I've seen a good dinner get chilly...

**CONKY CONKWRIGHT** comes up with something useful this time... Admitting that he is still unalterably opposed to parking meters, he says if we got to have them, make them useful... Take off those unsightly paper sacks on the meters now out of commission for the Summer... They look like, anyway, they don't look nice... Besides they are just an invitation for small-brained vandals to rip them off... Take off the sacks, he said, and put on neat little signs: "This meter is not in operation during the Summer... But if you'd like to contribute to the Boys' Club (or some other charity) drop in your coins and the city will see that it goes for that purpose"... That's an idea.

**BUSINESS MEN** are getting more and more out of the brown paper class... Some stores still stick brown paper over their windows when they leave but others are getting the idea... Thrifty Five and Ten at Amado and the Drive has photographs of Village scenes to do away with the drab look of a store.

See THIS SIDE, Page 5

### Local Area for Building Code

Citizens from all over the county gathered at Riverside Monday at a public hearing called on the proposed building code for unincorporated areas.

By a slim margin, those present expressed opposition and urged that supervisors call an election on the matter. Supervisors took no official action.

**SUPERVISOR HOMER** Varner of the Fourth District said he favored an election if it was confined to the areas affected—the unincorporated sections.

Citizens of the Palm Springs area present at the hearing were unanimously in favor of a building code and almost unanimous against an election.

**THEY WERE** Russell Rink, who said health and safety demanded such a code; W. R. Hillery, Cathedral City, who said lack of a code enabled unscrupulous developers to sell substandard homes; Earl Coffman, who urged the code saying lack of a code once threatened existence of Palm Springs; Harold Hicks, who said blighted areas around the Village proved the need of a county code; Paul Clark, Cathedral City, who said almost all of the people in that area favored the building code.

### Swimming

High School Pool Full up Daily

Palm Springs high school pool, being operated during the Summer months as a municipal pool, is teeming these days.

Advent of Summer and hotter days upped the attendance to more than 130 daily.

The pool is sponsored jointly by the Palm Springs Unified School district and the city recreation department.

### Odle Describes Reservation Plan

Lawrence L. Odle, Indian agent, addressed local Kiwanians Tuesday outlining the proposed zoning changes and improvements planned for Section 14. The rezoning issue will be before council next month.

Gerald Mitch II was program chairman for the day and John Connors presided over the meeting.

### Woman Bound Over on Check Charge

Helen Mahoney, who was returned to Palm Springs from El Paso, Texas, last week to face bad check charges, was arraigned before Judge E. E. Theriaud Saturday and held to answer to superior court.

She will face preliminary hearing tomorrow in Riverside.

### NEW WRIT ASKED BY DR. REID IN MOVE TO JOIN STAFF AT HOSPITAL

Attorneys Hilton McCabe and Rex Hardy this week filed another petition for writ of mandate to compel Dr. Henry S. Reid, pioneer local physician, to be placed on the staff of Desert Hospital and to permit him to admit patients.

The action was based on failure of Desert Hospital board of directors to call a hearing on Dr. Reid's application for admission to the staff during the fiscal year which comes to an end Monday.

**HEARING** on the second petition will be held July 8 in superior court at Riverside.

Attorneys McCabe and Hardy filed their first petition for a

### SUMMER'S START NOT TOO BAD

Summer arrived on schedule at 4:13 a.m. Saturday but the day was not too summery. In fact, it was not as hot as the preceding last days of Spring.

Maximum temperature on the first day of Summer was 102. The minimum was 63.

On the last day of Spring the mercury rose to 103 and dropped to 59. Earlier last week the maximum rose to 108 one day.

writ of mandate on behalf of Dr. Reid earlier this year, Judge Clarence Kincaid, sitting in the

desert branch of superior court at Indio, dismissed the writ because Dr. Reid's case had not been before hospital directors at an official hearing. He declared the writ premature.

**SINCE THAT** time hospital directors have held no hearing on Dr. Reid's application, his attorneys said. At a recent meeting of the board of directors of Desert hospital at which time several persons appeared to speak on behalf of the physician, directors indicated they would change the by-laws of the institution to permit Dr. Reid's application to be considered.

The attorneys also said this had not been done.

## Explain Code Covering Old City Records

Nothing Sinister  
in Resolution  
to Destroy Them

Action of city council last week in ordering records dated before June 15, 1947, destroyed except those which the state law says must be saved, was described as "just routine" and an annual practice for the past few years.

City Manager Russell Rink said that Section 34090 of the state government code provides for the destruction of old records by department heads upon authorization of city council and with consent of the city attorney.

**CERTAIN TYPES** of old records cannot, however, be destroyed. They include all records affecting title to real property or liens thereon, court records, records required by statute to be kept, records less than five years old, minutes, ordinances and resolutions of the legislative body (city council) or of a city board or commission.

Because of recent criticism of officials' expenses on trips to Washington, D.C., some question was raised in the Village by adoption of the resolution last Wednesday by council ordering old records destroyed.

**BUT RINK** said a check of the California code and of the city hall would reveal that there is nothing to be destroyed which would in any way preclude any further investigation.

At the city hall it was said there "isn't anything sinister in this resolution. Nothing of future use can be destroyed. The only records to go are those which have no further future use."

Resolution 3478, adopted last week, gives the city clerk and city treasurer the right to destroy unneeded records.

Lack of storage space was given as the reason for the order.

George Dennis of the Palm Springs Drug fountain, was taken to Desert Hospital last week for examination and possible major surgery.

## PUBLISHER'S CORNER

We hear no clamor to pledge their own lives, their own fortunes and their own sacred honor in defense of their own liberties."

Gen. MacArthur believes that although many pessimistic voices are being raised today throughout the United States the times are full of hope "if the vision and courage and faith of the early pioneer continue to animate the American people. . . I find that a great transformation in American thought to be taking place . . . our apathy is disappearing . . . American public opinion is beginning to exert its immense power. The American people are expressing themselves with dynamic force on foreign policy."

The famed general who rebuilt the Japanese nation believes that the issues which confront this nation today are clearly defined and so fundamental as to directly involve the very survival of the Republic: State Socialism and Communism . . . squandering of our limited resources to the point of our own inevitable exhaustion . . . the yielding of personal liberties and community autonomy . . . the decline in public and private morality . . . the pressure of alien doctrines.

You will find the book crammed with food for thought. This has been but a taste. Read it all and you will more than likely agree that it is a big contribution toward revitalizing this nation.

### The Other Side of the City Hall

by CITY MANAGER RUSSELL RINK

Webster's dictionary gives the word "budget" three definitions. He says it is "1. A bag or sack with its contents. 2. A financial statement of estimated income and expenses. 3. Loosely, the cost of operation, living, etc."

When we attempt to comprehend the size of an \$80,000,000 (no, the "0" key didn't get stuck) federal budget about all we can grasp is that someone has loosely estimated the cost of operation with the result that the taxpayer's bag is practically emptied of its contents.

By comparison Palm Springs budget of \$775,000 for the 1952-53 fiscal year seems inconsequential. But therein lies the danger. No amount should be allowed to become unimportant. \$775,000 is not piggy bank stuff and every taxpayer has a right to know how it's spent. Copies of the proposed City budget are available on loan at the public library for your study. For those who don't have time to read a long document, which can't begin to compete with the "who-dunits" for excitement, the following is a short summary with the figures rounded out:

Legislative Offices \$28,000  
Chief Executive Offices 14,500  
Finance Offices 24,000  
Law Offices 7,800  
Planning Offices 7,500  
Engineering Offices 3,000  
Government Buildings 15,000  
Police Protection 112,500  
Fire Protection 66,000  
Building Inspection 12,500  
City Pound 3,400  
Health Services 2,000  
Waste Disposal and Street Cleaning 68,500  
Streets 81,000  
City Shop 3,500  
Parking Meter Maint. 3,800  
Parks & Recreation 40,500  
Library 23,000  
Airport 5,600  
Advertising, Publicity 29,500  
Insurance 14,200  
Social Security 5,600  
Contingencies 10,000  
Miscellaneous Items 10,400  
Capital Outlays 79,500  
Bond Int. & Redemp. 69,700

Even a short summary turns out to be quite a column of figures. Now where does the

money come from to pay the above bill? Taxes on real property will provide \$381,000. The balance of \$394,000 comes from miscellaneous revenue which is made up of sales taxes, parking meter revenues, waste disposal charges, taxes received from the State, rents from land and buildings, business licenses, building inspection fees, and a multitude of small items.

Palm Springs' tax rate of \$1.28 per \$100 of assessed value on real property is generally below the average for cities in California. But the City tax is not the only one the taxpayer has to worry about. Out of every tax dollar collected in Palm Springs the City received only 25c for its operations. The other 75c went to the Schools, the County and several special districts.

Keeping one's eye on the ball is a recognized way of staying out of trouble but it's now obvious that the taxpayer has to keep his eye on several balls if taxes are to be kept in check.

## Budget Hearing Slated Monday by City Council

Hearing on the proposed budget for the 1952-53 fiscal year which starts July 1 will be held at city council chambers at 3:30 p.m. Monday, June 30.

Copies of the budget as now set up are available at Wellwood Murray Public Library and at The Desert Sun office for perusal by interested citizens.

The tax rate is expected to remain at \$1.28 per \$100 assessed valuation despite the fact that the budget will be higher than for the current fiscal year due to increased costs and salary hikes, City Manager Russell Rink said.

The tax rate will be set in August after receipt of assessed valuation figures from County Assessor Frank Burchfield, and adoption of the budget by council.

Assessed valuation figures are expected to gain \$1,000,000 and approach the \$30,000,000 mark.

## Scholarship

Ronald Summit

Going to Pomona

It was announced at Claremont last week that Ronald Summit of Palm Springs, had been awarded one of the 30 scholarships given high school graduates by Pomona College.

His father is a member of the staff of Palm Springs Unified School district.

The son will major in pre-medicine.

Fred Waring to

be at Idyllwild

Announcement was made at the Idyllwild School of Arts and Music that Fred Waring and his entire choral conducting staff will hold their West Coast Workshop at the school.

They will be there from August 4 to 8.

## Doc Stork

Two Boys, Two Girls  
Arrive in Week

Doc Stork was impartial in his deliveries to Palm Springs last week. He left two boys and two girls.

Arrivals were: A daughter to Mr. and Mrs. Don McCullough, 1134 North Calle Rolph. Weight 8 pounds, 8 ounces and named Sherelle Lynn, June 15.

A daughter for Mr. and Mrs. John C. Holland, 1543 East Ramon road, 6 pounds, on June 19. A son for Mr. and Mrs. Noble Smith, 725 Date street, 6 pounds, 6 ounces, named Gregory on June 18.

A son for Mr. and Mrs. Berbon Abner, 300 South Via Miraleste, on June 19.

## Telephone Rate Hearings Begun in Los Angeles

Hearings were resumed Tuesday on the request of the California Water and Telephone company which serves the Palm Springs area for an increase in rates. Justice Craemer of the state public utilities commission is presiding at the sessions and is expected to rule on the company's plea for an interim rate increase while the commission is studying the evidence for and against the hike.

The annual rate increase sought approximates \$244,000.

Company officials say the money, which will mean an average increase of from 35 cents

## Indio Man New VFW Leader

Walter J. Keil of Indio was elected state commander by Veterans of Foreign Wars in their convention at San Diego last weekend.

Gordon H. Winton Jr., Merced, was elected vice-commander.

Several Village members of the VFW attended the session over the weekend.

to \$1.50 on monthly telephone bills, is needed to meet the cost of new equipment to take care of overloaded circuits.

## Carnation CORNER

WHICH  
TWIN  
DIDN'T  
WATCH  
HER  
CALORIES  
?

So many of us would look better, feel better—just by losing a few unwanted pounds! Of course, you should consult your doctor if you have any health problem . . . but for just a few little bulges, your two best helpers will be:

1. Dr. Will Power . . . be determined you just are going to bring your weight down, be slim and pretty again!

2. New Carnation Non-Fat Milk . . . the finest food to help you slenderize healthfully! Brings all the whole milk values except butterfat. Plus Vitamins! Each quart brings your entire daily minimum requirement—and a bonus of Vitamins A, B<sub>1</sub>, C and D! It's the skim milk that tastes good—so delicious you'd choose it anyhow!

**"CUKES" CAN BE CUTE!**  
Wash, without peeling, a good-size cucumber. Score lengthwise through skin, with table fork. Slice very thin—"cuke" slices will have pretty "scalloped" edge.

**REMEMBER!** At least three 8-oz. glasses of Carnation Non-Fat Milk a day. Such a delicious, simple way to get protective elements you need while reducing!

**YIELD TO TEMPTATION  
WITH THESE SNACKS!**

Keep calorie-low snacks already prepared in your ice-box crisper. Celery curls and carrot sticks; radishes; raw cabbage and lettuce; sliced cauliflower; tomatoes; cucumber slices marinated in vinegar-water; and any raw fruit. Take a big, pretty plateful out to the patio . . . enjoy it with a tall glassful of cold Carnation Non-Fat Milk—who says it's hard to slenderize?

**READY-MADE SALAD**  
Your "tween-meal" snacks make a fine salad for the family! Serve it with this low-calorie

**ROSY SALAD  
DRESSING**  
(About one cup)

1/2 teaspoon celery salt  
1/2 cup catsup  
1/2 cup lemon juice  
1 tablespoon grated onion  
2 tablespoons Carnation Sour Cream  
1 1/2 teaspoons dry mustard

Place all in mason jar or shaker, shake and chill. Shake again before serving.

**SIMPLE MENU GUIDE**

Base menus on this simple plan (about 1500 calories a day).

**BREAKFAST:** Fruit or fruit juice, citrus or tomato; poached, boiled or scrambled egg; slice toast, 1/2 tsp. butter; black coffee (or with Carnation Non-Fat Milk).

**LUNCH:** Mixed garden or fruit salad, with tomato, vinegar or lemon juice (or Rosy Salad Dressing) garnished with hard-cooked egg; cooked vegetable (no butter); one 8-oz. glass Carnation Non-Fat Milk.

**MID-AFTERNOON:** Snack plate (see above), one 8-oz. glass Carnation Non-Fat Milk.

**SUPPER:** Cup bouillon; lean meat, fish or poultry (no gravy); greenleafy vegetable; raw vegetable (such as coleslaw); slice bread, 1/2 tsp. butter; one 8-oz. glass Carnation Non-Fat Milk; black coffee.

**ARE YOU A GARDENER?**  
Scrape your nails across a bar of soap before planting posies—garden soil then washes off easily!

**DON'T BE CARRIED A-WEIGH!** Weight loss is "spotty" at first—so weigh yourself only once or twice a week—much more encouraging! Use the same scale and dress the same way.

Do you find this column helpful? JUNE GOODALE may be addressed care of the address below.

## "Most-Wanted" of Them All!

It will probably occasion no surprise on your part to be told that the Cadillac car is the most wanted and sought-after automobile on the American highways.

But you might be surprised to learn how widespread the desire to own this great motor car has become during recent years.

Statistics indicate, for instance, that there are more than twenty million motorists in America who would like to call a Cadillac their own. And were the whole of the world's motorists to be considered, this number would grow well-nigh beyond comprehension.

There is reason to believe, in fact, that Cadillac may be wanted by more people than any other product manufactured in America today. It might well be called the great desideratum of the American people.

Naturally, a motor car has to offer many wonder-

ful things in order to occupy such a unique position in the hopes and aspirations of so many persons.

It has to offer great and distinguishing beauty . . . luxurious comfort . . . brilliant, masterful performance . . . and wonderful prestige.

And, of course, in order to have become the logical ambition of so many millions, it would have to be practical to own, as well as wonderful to drive. And so, it would also have to offer—extraordinary economy!

If this sounds like the description of the car that you, yourself, would like to own and drive, then come in and see us—soon.

Perhaps the time has come for you to join the hundreds of thousands of motorists who have stopped wanting a Cadillac—and started enjoying one!

We'd be happy to see you any time.

# New Route for Highway 99 is Announced

Dangerous Stretch North of Village to be Eliminated

Ten and one-half miles of dangerous and heavily traveled Highway 60-70-99, north of Palm Springs, between a mile east of Garnet and Thousand Palms will be rerouted and converted into a four-lane divided highway according to plans announced this week by the state highway commission.

There have been many accidents on the two-lane stretch and it has been blamed for the high county traffic toll.

The new highway will generally follow the line of the Southern Pacific tracks, it was announced.

The new highway will remove heavy grades, curves and improve visibility by eliminating dips. It will cut the distance between Garnet and Thousand Palms by a half mile.

Estimated cost is \$2,000,000. Hearings may be held by interested communities and the commission if they desire it, the commission said.

Figures show the average daily use to be 5,400 vehicles, one fourth of them trucks and busses.

## At Center

Fay Herbison is now in charge of the arts and crafts program at the recreation center at Frances S. Stevens school. She succeeds Mrs. Jeanette O'Day who will go to Redlands University for Summer studies.

# Redistricting Decision Due Early Next Month, Report

Decision on proposals to realign the city's seven councilmanic districts is expected early in July, Assistant Attorney Jerry Bunker, said Monday.

Briefs in the case are in the hands of Judge O. K. Morton of superior court who is expected to hand down his ruling within 30 days.

When Attorney Leonard Bock,

appeared on behalf of five Villagers to petition for a writ of mandamus to compel city council to call an election on redistricting, Judge Morton gave Bock five days to prepare arguments and authorities, the city seven days for rebuttal and Bock five

days for final answers.

More than sufficient names to force a special election were qualified on the original petitions filed with city council. When the latter body failed to act on the petitions, the writ was sought by Bock.

City Attorney Colgate in his arguments in superior court May 22 said that the present system of districting the city was the only fair one. Bock's clients contend that it is bulky, unwieldy

## In Mountains

The Rev. Wade Pinckney and wife of 465 North Calle Encelia, are spending the Summer at Hurkey Creek park.

and unfair in that some districts have a representative for a comparatively small constituency while others, with four times as many voters, have also just one representative.

## Squirrels

They're Almost Extinct in County

County Agricultural Commissioner R. W. Wright got \$7,000 from supervisors last week to keep the county's squirrel population where it is now, almost extinct.

Wright told the board the battle started in 1942 when the

county was overrun with squirrels, had just about wiped out the pests. The county and farmers had been paying the cost, \$12,000 annually, on a 50-50 basis. Now that squirrels are scarce, the farmers want to abandon the program.

But Wright said that if they did, it wouldn't be any time at all before the squirrels would again be on the rampage. So he got the money.

**NEW HOME**—Mr. and Mrs. Jules Howard, above, take possession of their new home in Deep Well Ranch Estates from Bill Grant, left, developer of the tract. (Gayle Studio Photo)

## Jules Howards Buy Model Home

Bill Grant, developer and builder at Deep Well Ranch Estates, said this week that Mr. and Mrs. Jules Howard have purchased the last of the model homes built in this new residential tract.

The home acquired by the Howards is the one that induced the editors of Better Homes and Gardens, national famous home magazine, to send a staff member here last winter to examine the residence during the course of construction because of the many new and modern innovations, Grant said.

The Howards recently sold their home in the north end of town.

## Sutter Will Face Trial August 4

Henry Sutter, 46, accused of the murder of Samuel Davis, Desert Hot Springs property owner last month, will face trial for the slaying in superior court August 4. He was found sane by psychiatrists in Judge John Gabbert's court last week.

Sutter is accused of killing Davis at a lonely spot north of Highway 99 and of placing the body in a trunk and abandoning it at Newport Beach.

## Pipe Contract Let to Two Companies

Plant Pipe and Steel company and the E. R. Parkhurst company were awarded contracts totaling \$225,115 for water pipe and fittings for the new North End park.

Cost of the work will come from the municipal improvement fund.

## Mr. and Mrs. Roy Now on Staff of Edith Eddy Ward

Announcement was made this week by Edith Eddy Ward that George Merrill Roy and his wife Lois Roy have become associated with her in the Palm Desert real estate office which she maintains at 73-667 Highway 111. The Roes will carry on with the operations of the business this summer, Miss Ward said; Mrs. Roy remaining in Palm Desert to keep the office open all summer there, while Mr. Roy will be in charge of the Idyllwild office.

Miss Ward will leave for a vacation early in July and return about Sept. 1.

Mr. and Mrs. Roy have been living in the desert area for 20 years and are among the first residents of Palm Desert. They were connected with the Desert Magazine for some time and have been in the real estate business in Palm Desert for the past two years.

While in Idyllwild this summer, Roy will do some lecturing on natural history at the Desert Sun School there, in addition to his real estate activity, he said.

## Gunshot Chase Proves in Vain

Police hurried out to Calle Marcus last weekend when reports came that someone was firing a gun from a moving vehicle.

The report was made by Mitchell Slayman.

The automobile had sped away, however, when they arrived.

## Robert Henwood Newest Member of Rotary Club

Newest member to be inducted into the Palm Springs Rotary club is Robert Henwood, who was recently named administrator of the Desert Hospital. The club membership now numbers about sixty-five.

While the Rotary club continues its regular meetings at American Legion Hall Wednesdays, no formal programs are scheduled. Attendance has held up well this month, President Crommelin said, with many out-of-town members still dropping in for the local club's meeting.

It was announced at the meeting this week that Kenneth B. Kirk, president of Los Angeles Rotary and a winter resident

## Boy Scouts Plan Holiday in Mountains

Under supervision of Vernon Baumgardner, scoutmaster of Troop 118, 14 Boy Scouts will enjoy the Fourth of July weekend at Camp Emerson near Idyllwild.

Any Scout of Troops 56, 39, 81, or Explorer troop 111, who would like to go on the camping trip, may contact Scoutmaster Baumgardner at 246 South Indian avenue or call 7941, he said.

Troop 118 wants to thank Fred Hathaway and H. A. Scrivener for their help in making the outing possible, said Baumgardner.

here, was almost completely recovered from a recent illness that confined him to the hospital for over a week.

From where I sit... by Joe Marsh

## Whitey Sure "Rang the Bell"

Telephone woke me out of a sound sleep last Friday about eleven-thirty. "This is Whitey Fisher out on River Road," says a voice. "I just wanted to tell you how much I like this week's *Clarion*."

"Thanks, Whitey," I told him. "But why in blazes call to tell me at this time of night?" "Simple," he says, "your paper boy just delivered it a short while ago. Been waiting for it all evening."

Next day, Buzzy Wilson tells me he delivered Whitey's paper late because he stayed for the school dance and thought it would be OK

to drop it off on his way home.

From where I sit, I can't blame Whitey for his joke. He was just reminding me we owe other people the same respect we expect from them. Since I'm always talking about respecting the other fellow's rights—including his right to enjoy a glass of beer if he chooses, it was only fair that Whitey should "wake me up" to his right to get his copy of the *Clarion* on time. Thanks again, Whitey!

## Hoover Reports Much Activity in Real Estate Here

Al E. Hoover, realtor with Culver Nichols real estate office, said that the season which closed with the arrival of Summer was a highly successful one in real estate transactions and reported a large volume of business and property changes.

He said 23 residential lots were sold along with business frontage on Palm Canyon drive, homes, acreage, and improved business property.

Last week the Nordstrom home on Paseo El Mirador was bought by Mr. and Mrs. William Guy Martin of San Francisco concluding an active season.

Other items on the long list of realty transactions included the transfer of the Palm Springs Skeet club on East Ramon east of St. Theresa's and the high school to Honorary Mayor Bob Hope. It consists of 20 acres. The business property known as the Luke building, 370-380 North Palm Canyon, was sold by C. C. Shalwitz of Los Angeles, to Messrs. Colner and

# Child Drowns After Tricycle Slips into Pool

Firemen Work  
in Vain to Save  
Boy, Aged 3

Funeral services were held Saturday at Weifels and Sons chapel for little two years and nine months old Randall James Hadlock, son of Mr. and Mrs. James D. Hadlock. The child lost his life by drowning in the pool at the home his parents had just rented, late Thursday afternoon.

He had apparently slipped while riding his tricycle around the water.

Firemen worked for an hour with their resuscitator in a futile effort to revive him.

Dr. James H. Blackstone Jr. of Community church officiated at the services. Interment was in Palm Springs cemetery.

The father is program director for KCMJ and the family had only moved into the home at 360 Pablo drive the day before.

Little Randall is survived by his parents, a sister, Karen Sue and his maternal and paternal grandparents, Mr. and Mrs. J. A. Puckett of Heber and Mr. and Mrs. Walter Ausley of Holtville.

## Indoctrination for JC Officers

Members of Palm Springs Junior Chamber of Commerce will meet tonight for the first indoctrination meeting for new officers since they were installed.

The officers are W. S. Foster, president; Don Seiler, first vice-president; Don Miller, second vice-president; Kenneth Amos, secretary and Fred Swedehjelm, treasurer.

The meeting will be held at American Legion hall. Speakers will be Attorney Leonard Bock, Dr. Charles Baldwin, Ed Hawkins, Ted McKinney and Ed Zirkinsky who will tell the new officers of the Jaycee program.

Foster was recently made a director of the senior Chamber.

## Highway 99

Another Wreck

Near 1000 Palms

Highway 99, four miles west of Thousand Palms was the scene of another automobile accident Saturday when a passenger vehicle ran into the rear of a truck.

Taken to Indio for treatment for serious injuries were Mr. and Mrs. Charles J. Hoffman, Los Angeles, and their guest, Dorothy Heilm, Corona.

C. E. Strand, Burbank, driver of the truck was uninjured.

## Hayden Ignores Varner Selection

County Supervisor Chairman Irwin Hayden broke a precedent Monday.

He appointed Robert Berlin of Banning as a member of the county planning commission although Fourth District Supervisor Homer Varner had recommended Sam Bedford of Mesa, near Beaumont.

Heretofore, supervisors had al-

closed for the Summer . . . At Jimmy Humes Magic shop where a dummy magician made things disappear is a sign: "Disappeared Until Fall" . . . Some use

ways appointed the man recommended by the supervisor from whose district the appointee came.

But Hayden said there was no law requiring him to do this. Berlin's appointment was confirmed by a four to one vote.

silver paper, brighten it up with artistic signs in color . . . Other merchants say they have to use thick brown paper or the Summer sun would take a big toll . . . Best of all are those wind-drops still full of goods and the signs: "Open All Summer."

DAVE DUNSWORTH came in the other morning looking rather peaked . . . Seems the VFW had been entertaining some visiting sailors . . . Dunsworth said it was the first time he had watched the dawn crack wide open for some time . . . It took some of the boys who used to

stay up 72 hours at a stretch while overseas, 72 hours to recover because they missed their usual bedtime by three or four hours . . . Read in the public prints where a desert inhabitant threw Wilshire boulevard traffic in a snarl and had two city blocks in a turmoil . . . It was a little lizard scurrying across the sidewalk . . . Some yelled "Gila Monster" and ducked for cover . . . The SPCA entered the scene and put lizzie in a paper sack . . . Later it was released . . . Good idea . . . I like to see lizards around the place . . . They keep insect pests

down . . . It's almost that time of year when lizards walk on their hind legs . . . That, says Judge Gene Therleau is to keep their bellies from being scorched by the hot pavement.

AUTOISTS should remember that they become pedestrians the minute they step from their cars . . . They should also remember the jay-walker they hurled imprecations at a half block back . . . For when they step out of the left door into the street they're jaywalkers themselves and candidates for a disastrous bump — especially

## The Desert Sun—5 PALM SPRINGS, CALIFORNIA Thursday, June 26, 1952

since there isn't much room now that Palm Canyon drive has four lanes . . . And better start rehearsing right now on that little theory that every driver on the road but yourself is screwy . . . By the time the long three-day holiday rolls around next week, you'll be better prepared . . . Best thing is to stay home.

And to all of you kind postcard writers—up to the other night, I slept under a blanket, too. Y-a-a-a-h.

# HERE'S THE FISH STORY

...THAT TOPS THEM ALL!

There's nothing "fishy" about these statements: (1) No other markets in California offer a greater variety of fish than Mayfair. (2) Today, fish is your least expensive main-course. (3) Fish is rich in nutritive value. (4) If you don't shop at Mayfair this week-end, you're going to miss the finest values in town!

## Accused Trailer Thief Pays for Vehicle and Trip

Chief of Police A. G. Kettmann, who went to Michigan to return A. G. Raichle here on charges of theft of a house trailer, came back empty-handed—but he had the price of the trailer and the trip will not cost the taxpayers anything.

Raichle fought extradition and at a hearing before Gov. G. Mennen Williams at Lansing, Mich., he was granted time to raise money to pay for the trailer and for the trip of the Village officer. The trailer was valued at \$850.

Chief Kettmann said Raichle

## Unlucky Weekend for Two in City

It was an unlucky weekend for two in Palm Springs. Mrs. Trule Vidrios of Thousand Palms told police she had lost her wallet containing \$22 in cash and her birth certificate near St. Theresa's church Sunday, and Herman Waldman, 260 Paseo El Mirador, reported the loss of \$50 or \$60, clipped together with a gold tie clasp, while marketing Saturday.

## Stray Puppy Now at Home at Staleys

Mrs. Helen Staley, wife of Dr. P. A. Staley, told police this week that a small German Shepherd puppy had wandered into the yard of their home, 359 Valmonte Norte.

She said she will take care of it until the owners call.

admitted taking the trailer but that he had intended to pay for it. The trailer was taken two years ago. It was the property of Frank Gorman who now resides in Norwalk.

## School Centers Attendance Now Over 1000 Daily

Attendance at Frances S. Stevens and Cahuilla schools' Summer recreation centers is now approximately 50 per day at each place, Dr. A. G. Hoff, superintendent of Palm Springs Unified School district which sponsors the program, said last week.

The children are guided in free play and arts and crafts. The activities include clay modeling, raffia weaving, making of puppets, dramatics, singing, checkers, dominoes, softball, Chinese checkers and many other types of games. They are permitted to move freely from one activity to another, depending upon their interest.

To be eligible for the program children must be of school age and have attended kindergarten or higher classes.

"Children under this age require too much personal attention and therefore cannot be handled adequately in groups," Dr. Hoff said. "Parents are urged to cooperate in this age limit."

The Centers are open from 9 a.m. until noon Mondays through Fridays with two supervisors at each school.

## At Zone Hearing

Palm Springs residents who have Summer homes in Cherry Valley in what is known as the Mesa Miraville section, were present at a zoning hearing at Riverside Tuesday when a permanent zone map for the area was discussed. Supervisors recently granted a six-month R-1 interim zone for the area.

## At Sacramento

Sgt. Howard Poe of the police department traffic squad was in Berkeley last week to attend a University of California traffic seminar.

## INCOME

\$12,000 Per Year  
11 units and helps quarters, situated in one of the most desirable Hotel areas in town. Property has a 20'x40' filtered and heated pool, lots of shrubs, newly repainted. Will show \$12,000 per year on a \$50,000 cash equity. Price is right and owner will carry a 5% trust deed on balance.

## The High Desert

"Cavalcade of Twenty-nine Palms"

Interest of Southern California residents has been centered upon the desert community of Twenty-nine Palms since construction work was started early last month on the new \$16,000,000 Marine Corp Base there.

That workers, investors and other interested persons may have some idea of the history of this thriving little community, this newspaper presents the "Cavalcade of Twenty-nine Palms." Necessarily brief, the fact presented form an interesting pattern which provides a background for the district, destined to become an important factor in the national defense effort.

As a community, Twenty-nine Palms is very young—less than 50 years old. Prior to that time, the Oasis of Mara, where the remainder of the original 29 palms are located, was a camping ground for Chemehuevi Indians, who since have moved to Palm Springs. Earliest white settlers were prospectors and mule-skinner who brought mining machinery to the several gold mines in the area.

Immediately following the close of World War I, health advantages of the area, which has an elevation of 2,000-3,000 feet, attracted attention of medical men associated with veterans' hospitals, and arrangements were made for homestead rights for service men suffering from respiratory ailments. Many of the "old-timers" still living in Twenty-nine Palms arrived in 1919, homesteaded, and have been residents ever since.

The community received added impetus in 1941, just prior to outbreak of World War II with the development of the 29 Palms Air Academy, a civilian project which trained approximately 14,000 glider and power pilots in three years. During its existence, the present airport was constructed with facilities for 3,000 men. Airport now is in use as barracks and camp ground for workers engaged in construction of the new Marine Corps Base. It was evacuated late in 1944 as an air training ground, the Naval air arm having used the facilities after Army Air discontinued training there in April of that year.

Meanwhile, the Joshua Tree National Monument, 557,934 acres of scenic wonderland in the Little San Bernardino mountains just south of the area, was being perfected and attracting attention on a national scale. In the first seven months of the current fiscal year, more than 100,000 visitors have been in the Monument, of which 29 Palms is the northernmost entrance.

Staff of the government preserve includes a park ranger, stenographer-clerk, three fire control aides, five-man road crew which maintains 100 miles of road, six camp grounds and hiking trails within the reservation. Crew is under direction of Frank R. Givens, NPS superintendent, who has been in charge since 1947.

Since that year, business growth of the community has been phenomenal. The development has been normal and natural, the "boom-town" atmosphere entirely lacking until an-

nouncement of the present military activity.

On Nov. 19, 1947, the Thos. H. Ince Memorial Hospital was dedicated in observance of the 23rd year since death of the famous motion picture magnate, whose son, Dr. Wm. T. Ince, heads the institution. Modern in every way and with all facilities of a first-class hospital, the building constitutes a decided adjunct to the community, is available to doctors as an "open staff" hospital, is a Blue Cross affiliate, and is an unusually fine hospital for a community the size of Twenty-nine Palms.

In 1948, the Joshua Monument National Bank of Twenty-nine Palms opened its doors in a new building constructed for it by Ed Kenney, local druggist, whose new and modern drug store is just across the street on 29 Palms highway. Starting with a relatively small capitalization and with nominal resources, present financial statement of the bank shows assets of more than \$1,500,000.

In 1950, Jack Lynn, Sr., steel man of Long Beach, built The Bowladium, a modern, beautifully equipped bowling establishment, with eight new Brunswick bowling lanes, coffee shop, etc., at a cost of \$125,000. One year later, the Persian Room, de luxe cocktail lounge, was added at a cost of \$25,000. The Bowladium is unusually distinctive and the most elaborate structure in this area. Lynn and his wife, Dorothy, are owner-operators.

Other modern business buildings followed rapidly in the wake of the bank construction. There are new store and office buildings of modern design dotting the Four Corners area, main business section, and many investors and business enterprises are purchasing property with a view to establishing branches in the booming community.

## FIREMEN TO HAVE BUSY SUMMER

Palm Springs firemen admit they have all Summer in which to do it—but still, it's a big job.

They are going to dismantle about 400 parking meters, clean them and re-assemble them to have them ready for service September 15.

They are working on the meters which were decommissioned June 15 and will be idle all Summer.

Until September 15 the only meters in operation will be on Palm Canyon drive from Amado to Tahquitz drive and on Amado and Andreas between Indian and Palm Canyon.

## Cost of Automobile Liability Insurance Jumps Sharply

Statewide boost in automobile liability insurance rates amounting to an average increase of 29.8 per cent in the Riverside area was announced effective as of Monday, June 23 by the National Bureau of Casualty Underwriters.

On the state level, the increases range from 29 to as high as 50 per cent depending on the rating area. It's the third rate increase in five months.

Under the boost, insurance in the Riverside area on the basic \$5,000 to \$10,000 rate on liability insurance for persons over 25 years of age jumps from \$22 to \$30 while property damage for the same age group rises from \$13 to \$20.

For drivers under 25 years of

age, the combined bodily injury and property damage rate rises from \$58 to \$82.

Annual \$25,000 to \$50,000 policies in the Riverside area are upped from \$46.88 to \$60.80 by the rate adjustment.

Rollis E. Fay, manager of the Pacific Coast branch of the Casualty Underwriters, said that the insurance rates were increased chiefly because of more accidents.

## Goes to Honolulu

In Honolulu to attend University of Hawaii Summer school sessions this week is Betty Wright, daughter of Mr. and Mrs. Billy Wright. A student at UCLA, she left Friday by plane with nine other southland college girls. Mrs. Bonny Fultz, of Scripps College, is accompanying the girls.

## Palm Desert Drive

L. C. Lewis, Cathedral City, member of the county planning commission, Tuesday recommended that the service road south of Highway 111 in the Palm Desert area be named Palm Desert drive. The service road on the north side is already known as Palm Village drive.

## Vista del Cielo Proposals Under Study by Council

City council will deliberate as a committee of the whole the recommendations of City Manager Russell Rink on the application of owners of Vista del Cielo tract for changes in street specifications and lot variances.

The request was made by George Gannon who asked that the streets be paved under standards in practice when the subdivision was laid out.

Rink recommended that this be denied and that they be paved under present standards. He said pavement under the old method would cause the streets to deteriorate quickly and become an expense to the city.

He also said that variances to permit sale of 75 foot lots instead of 150-foot lots had lapsed and that the owners would have to apply anew. He recommended that these variances be granted providing the streets are paved under present standards.

## County Hospital Branch Far Off

Chances for a branch of the county hospital in the desert area appeared slim today as supervisors indicated there would be no appropriation in the 1952-53 budget for the building.

Cathedral City Chamber of Commerce and Coachella Valley Advisory Planning committee had asked the board to consider the proposal.

At the CVAPC meeting it was hinted that unless the board took some action the area might not support the proposed county bond issue for a new county hospital at Riverside.

## Bad Check Case Suspect Vanishes

Patriella Stacey, wanted in the Village for questioning as result of approximately \$1600 in worthless checks, was sought in Chicago last week by Police Chief A. T. Kettlemann when he was in the midwest on other business.

At the time she was first arrested here, she told police she was a TV-movie actress.

All leads in Chicago failed, however, and local police forwarded finger prints to Chicago where the search will continue.

## Fee for Church Addition Waived

City council last week granted a waiver of building permit fees to Community church. Dr. James H. Blackstone Jr. made the request.

The church is adding to its Sunday school facilities.

## Samson Attending Insurance School

Herbert Samson of the insurance firm of Samson and Curtis, is in Palo Alto this week to attend the annual institute at Stanford College of Business for insurance men.

The five-day session is being devoted to Advanced Agency Management.

### BB Guns Busy

Reports that youngsters were firing a BB gun promiscuously in the 300 block on Calle Santa Rosa took police there in a hurry but they were unable to locate the shooter.

## Angie Del Vaglio Attends Girls State at Sacramento

Angie Del Vaglio, local high school student, is in Sacramento this week attending the ninth California Girls' State, being held in the capitol city at the California Junior high school. The Palm Springs representative is sponsored by Owen Coffman Unit No. 519, American Legion Auxiliary. Citizenship, scholarship, and interest in government, formed the basis for her selection from among the girl students of the junior class.

She is with 383 outstanding California girls who embarked on a glorious adventure and a week's intensive study of government with the opening of Girls' State June 18 continuing through the 26th.

Included in the enrollment this year for the first time, is an exchange student from Crailsheim, Germany. She is Tomgard Hannelore Markert, who has

## Waste Disposal Bids Rejected

The city will continue to operate the waste disposal department a little longer. At its meeting last week it rejected both bids offered, one by John Sherman of San Diego and the other by Clark brothers of Ontario.

City Manager Russell Rink was authorized to re-advertise for bids.

The city wants to get out of the waste disposal business because it is losing \$3,000 annually.

# Four Clubs Tied for First Place in Little League

LITTLE LEAGUE		
	W	L Pct.
Strebe Theaters	4	3 571
Junior Police	4	3 571
Boys' Club	4	3 571
Cravy-Hathaway	2	5 287

Three teams were tied for the top spot in the Little League today as result of games Tuesday night in which last week's two leaders bowed to second division teams.

Strebe Theaters lost to Cravy-Hathaway 13 to 8 in a game which was called because of the time limit, and Boys' Club trimmed Junior Police 5 to 1 to draw into a first place tie.

In the latter game, Johnny Andreas allowed only one hit and fanned 15 men. In the past two games he has fanned 34 and allowed only one hit.

In the first game Jerry Fortunato of the CH team hit three out of three.

The line score: R H E Cravy-Hath. 400 36-13 1 2 Strebe Theaters 230 21-8 5 5 Darling, Pellum and Meek; Flores, Tabor and Tabor, Flores.

Junior Police. 000 100-1 1 2 Boys' Club 110 03x-5 4 2 Self and Lewis; Andreas and Fauff, Segundo.

## Merchants Idle in County Loop

Palm Springs Merchants are idle this week in County League circles, drawing byes Tuesday and Thursday in the schedule.

Next week they renew activities Tuesday night at Perris and entertain the league-leading Indio team here Thursday night.

Next week's play starts the third round in the loop.

Standings in the County League including last week's games:

	W	L	Pct.
Indio	8	1	888
L. A. Brick	4	3	571
Banning	5	4	555
Palm Springs	5	5	500
San Jacinto	5	5	500
Elsinore	4	5	444
Perris	0	8	000

## International Ball to Launch Shadow Mountain Season

Among the earliest events already scheduled for the Fall season is International Ball at the Shadow Mountain club of Palm Desert on Oct. 17th. This costume event will be held even prior to the formal opening of the club and will mark a colorful beginning of the social season.

This is the first time an event with such a complete international atmosphere has been planned for this area, and it will include exhibits, acts and famous dances of many nations.

Although not yet complete, the committee includes Mogen Skot-Hansen, international film representative for the West Coast; the Jasha Veissis of the musical world who winter at

## Howard Manor to Add New Units

Robert Howard of Howard Manor last week announced plans for a \$100,000 expansion plan at the popular hotel. Work will start July 1 on the program.

Architect Stewart Williams of the firm of Williams, Williams and Williams is drawing the plans and will be in charge of the project.

New off-street parking areas and construction of 18 new hotel units are main features of the improvements.

8—The Desert Sun

PALM SPRINGS, CALIFORNIA  
Thursday, June 26, 1952

## Top Wrestlers to Appear Tomorrow Night at Indio

Three big-time wrestling events are on tap tomorrow night at the Indio Fairgrounds. Headlining the bouts will be the world-famous midget wrestlers, Harry (The Great Atom) Monty and Billy (The Tiny Terror) Curtis.

Proven by a poll to be the best attraction on television today, the little wrestlers are also champions at the box office as they have been selling out every arena in which they appear.

A CURIOSITY of nature, the miniature grapplers are really something to watch. They do everything that their big colleagues do but they do it unbelievably faster and with more dispatch. Without a question of a doubt these two grapplers are the strongest men in the world for their weight and particularly The Great Atom, who performs feats of strength over television regularly and has been judged the strongest midget in the world. Standing 38 inches and weighing in at 68 pounds, The Great Atom can pick up a 300

## Little League Double-Header Slated Tonight

Little Leaguers take over tonight at Polo Grounds in their second double-header of the week.

Strebe Theaters and Boys' club meet in the first game at 7 p.m. and Junior Police meet Cravy-Hathaway in the second game at 8:30.

## Pat Martin in PGA Tourney

Pat Martin, O'Donnell and Tamarisk golf pro, was at Louisville, Ky., last week to participate in the Professional Golf association tournament. He did not get into the play, however, as his first day's card was a 77 and he failed to make the 147 necessary to get into the PGA tourney.

Palm Desert; the A. W. Shores of Desert Hot Springs; the Oliver Jaynes of Palm Springs; Edgar Bergen and, of course, Charley who is already figuring on carrying off the "best costume" prize!

Ideas and suggestions for the affair are welcomed by the committee. It was announced, Mrs. Irene Mathias of Shadow Mountain club, Marie Sweet and Mrs. P. K. Nichols, Jr., are assisting with plans for the occasion and join with the committee, they said, in welcoming ideas to be incorporated in the evening's program.

pound man and spin him on his shoulders.

The Tiny Terror, who is a little shorter but who outweighs his opponent a full half pound, relies more on speed and agility than in strength, as he has for years been top man in a tumbling show.

PROMOTER Leo Ellis has lined up two other events to complete his first card. In the semi-final event, two out of three falls with a limit of 45 minutes, Mexico's Juan Renesta will make his bid for the favor of the many Mexican fans in this area. Renesta will oppose "Honest John" Cretoria, a worthy opponent from Bulgaria. The first match, also with a two out of three fall, 45 minute time limit will feature Johnny James against Hardboiled Hardy. All matches under the strict supervision of the State Athletic Commission.

## Jaycee and DHS to Clash Monday

Junior Chamber of Commerce Softballers and Mhoon and Mhoon of Cathedral City clash tomorrow night at Polo Grounds in the City League at 8:30. There will only be one game tomorrow night.

Next week the Jaycees and Desert Hot Springs now fighting for the league leadership meet Monday night at 8:30 and Youth Center meets Mhoon and Mhoon Wednesday, ending the third round of play.

There will be no game Friday night because of the Fourth of July holiday.

## Teenagers Clip DHS and Climb Into Third Spot

CITY LEAGUE		
	W	L Pct.
Desert Hot Springs	5	2 714
Junior Chamber	3	3 500
Youth Center	3	4 428
Mhoon-Mhoon	2	4 333

Youth Center, after losing four straight games in City League, made it three straight wins Monday night when they trimmed the league-leading Desert Hot Springs team 10 to 8 at Polo Grounds. The win lifted the Youth Center out of last place in the loop.

They had to do it the hard way for they went into the fifth inning trailing 8 to 4. Six runs in the next two innings turned the trick. Phil Lester hit safely three times in four times at bat.

Charley Black, who went into the game in the fourth to pitch for the teenagers, fanned 8 men in the last three innings.

The line score: R H E Youth Ctr. 004 033 0-10 8 3 Des. H. S. 103 400 0-8 4 2 Lewis, Black and Reeser; Poist and Allen.

## THE UNDERSIGEND AGENTS, HAVING TAKEN AN ACTIVE PART THROUGH THE YEARS IN EFFORTS TO OBTAIN BETTER FIRE INSURANCE RATING THROUGH IMPROVEMENT IN OUR FIRE DEFENSE FACILITIES, ARE PLEASED TO MAKE THIS REPORT TO OUR INSURANCE BUYERS.

Effective January 1st, 1952 the Board of Fire Underwriters announced that the City of Palm Springs has been re-rated from National Board Class 7 to National Board Class 6, with an immediate reduction in fire insurance rates on dwellings.

This improvement in the rating of Palm Springs was brought about by several factors, principally the wise expenditure of the bond issue by the City Council and City Administration in acquiring new fire defense facilities, and the high standards of the Fire Department and the Palm Springs Water Co.

A typical frame-stucco dwelling with fire-resistive roof, was reduced in rate from \$7.25 per \$1,000.00 for three years to \$6.50 per \$1,000.00. These new rates were applicable on all new and renewal policies, after January 1, 1952.

The re-rating of non-residential property posed an entirely different and more complicated problem. Each mercantile building is rated by specially trained fire engineers on a basis of construction, use, and proximity to nearby buildings from which a fire may be communicated. This entailed assigning of a crew of engineers to inspect every building in the community. We appreciated the consent of the Pacific Fire Rating Engineers to putting Palm Springs on an earlier schedule than we had hoped for, with the result that new mercantile rates on all Palm Springs buildings have now been published, effective May 1, 1952.

The new rates are being studied with respect to each insured building. In some cases there will be an advantage in cancelling the existing policy, and writing a new policy at this time. In other cases the rate reduction will have to wait until the present policies expire. We will advise our respective clients as the studies are completed.

In a relatively few cases the recent engineering has brought to light conditions which bring about a higher rate, due to changes in occupancy, construction, or exposure to nearby frame buildings erected since the last engineering survey.

On the whole, the reductions are very satisfactory, and we are proud of the progress made by our community in this respect.
